## Faculty and Staff -- Do You Copy?

We in the reproduction services area would like to ask the Faculty and Administration of MCA to try to be a little more co-operative when requesting our services. We understand fully that at times emergencies arise and we will try to meet them as best we can. But it seems this year especially, more requests are being emphasized as RUSH than ever before. Also, the volume has increased markedly. All we ask is that you try to plan your work in such a way that we may have ample time to honor all requests and be able to give you a good job. Thanks.
